

2008 North Main Street Reconstruction between Wheeler Dam Road and Evergreen Road

Bi-Weekly Progress Report June 6, 2008

The following is an outline of work that was performed on the North Main Street Reconstruction project in the prior 2 weeks, and a look ahead at work that will be taking place over the course of the next two weeks.

Last Two (2) Weeks

- Construction stakeout completed
- Erosion control installed
- Traffic advisory signage installed
- Construction of new drainage system has begun at south end of project

Next Two Weeks

- Drainage construction shall continue on North Main between Wheeler Dam Road and Atkinson Road
- Expect traffic delays and some temporary detours during the work day
